14 SUZANNE CASSIDY: My name is Suzanne Cassidy,
15 C-a-s-s-i-d-y, and Suzanne is S-u-z-a-n-n-e. I am against the
16 transportation, storage, and production of nuclear waste. And
17 if it must be produced, it should remain at the location where
18 it was produced. Until the technology is there to recycle it
19 properly and safely, I don't think we should do it. There is
20 too much at risk.

21 That's what I have to say.
